

# Sheep Pro

**An all natural molasses based supplement block that provides additional protein, energy, vitamins and minerals for Sheep.**

Ideal for:  
Sheep

### Applications:

- For sheep grazing on pasture.
- For grain fed sheep.
- A nutrient supplement for flushing ewes during the breeding season.

### Advantages:

- Manufactured from all natural protein sources.
- Provides supplemental protein, energy, vitamins and minerals for optimum breeding performance.
- Provides supplemental vitamins and minerals for improved disease resistance, herd health and reproductive efficiency.
- Increases body condition, feed efficiency and animal growth.
- Enhances rumen microbial growth for improved forage intake and utilization of low quality forages.
- Attracts livestock to encourage movement in rotational grazing operations.
- Highly palatable product to increase utilization and enhance appetite.
- Convenient, easy to handle and does not require specialized feeding equipment.
- Extremely price competitive as the low feeding rate means lower feeding costs per head per day.
- Economical to use since its weather resistant formulation provides little to no waste.
