

# Horse Pro

**An all natural molasses based supplement block that provides additional protein, energy, vitamins and minerals for Horses.**

Ideal for:  
Horses

### Applications:

- For all types of horses grazing on pasture.
- For all types of horses hay fed during the winter.
- As a nutrient supplementation for horses at every life stage.

### Advantages:

- Manufactured from all natural protein sources.
- Provides supplemental protein and energy when the forage source does not provide enough protein to maintain the horse's body condition.
- Provides supplemental vitamins and minerals for improved disease resistance, horse health and reproductive efficiency.
- Increases body condition, feed efficiency and animal growth.
- Attracts horses to encourage movement in rotational grazing operations.
- Highly palatable product to increase utilization and enhance appetite.
- Convenient, easy to handle and does not require specialized feeding equipment.
- Extremely price competitive as the low feeding rate means lower feeding costs per head per day.
- Economical to use since its weather resistant formulation provides little to no waste.
